DETAILED ACTION

Claims 5-8 are pending in the application.

Election/Restrictions

Claim 5 is generic to a plurality of disclosed patentably distinct species being administered for the claimed methods of use comprising compounds in which X represents oxygen or sulfur.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this

is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Additionally, Applicant is required to elect a single method of use being claimed in instant claim 5.

Note: Please correct the dependency in claim 7 when responding to this Office Action.
